5. [REDACTED] was up to clear with me a dispatch to his auditors which will direct them to look into rather thoroughly the representation allowances at all stations where such allowances are granted. This is being done at the specific request of the Inspector General. (He also advised me that it would be necessary for him to go back to the hospital for ten days or so around the 14th of January.)

6. I met with Gordon Stewart, [REDACTED], Matt Baird, Bill [REDACTED] 25X1A9a

[REDACTED] to discuss the expanded JOT Program. It appears that what is actually needed is an increase in the ceiling from [REDACTED] 25X9
[REDACTED] This ceiling will be attained gradually beginning in Fiscal Year 1961 and probably will be reached sometime in Fiscal Year 1962. Gordon is to prepare an appropriate paper for my signature to the Director.

[REDACTED]

the two Logistics men at that station. They are to discuss the matter with Mr. Kirkpatrick and to let me know if Mr. Kirkpatrick objects to this procedure. In this connection, I also gave the Inspector General's Report on Project [REDACTED] to Vernon [REDACTED] and asked him to coordinate our reply with the Office of Communications and the NE Division and that I would hope to reply within 30 rather than 90 days.
